

# Jonathan Worth

DEVELOPER

## INTRODUCTION

Dedicated developer seeking to join a forward looking company, coupled with a vibrant and ambitious team. I come with an affinity for programming, particularly in image manipulation and data visualization. Looking for a place where I can engage in high level software engineering, and refine my skillset.

## EXPERIENCE

### ENSEMBLE SYSTEMS

Software Developer  
2021-Current

- Developed features using Javascript, React, React-native
